

MONDAY NOVEMBER 2.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS TO THE DAILY GAZETTE WHO DO NOT RECEIVE THEIR PAPER REGULARLY, WILL CONSIDER A FAVOR BY REPORTING THE SAME TO THE GAZETTE PRINTING ROOM.

LOCAL MATTERS.

Ice!

All those wishing ice in November, leave orders at R. W. King's.

J. H. GATELEY.

Arrived this morning pine apples, quinces, pears, apples, oranges, figs, pitted prunes, plums, 20 baskets fine Concord grapes, banana and celery at Denniston's.

WANTED.—Place to work for board, out of school hours and Saturdays. Address "Drawer C," Janesville, P. O.

More good news from C. E. Bowles, in this column.

Children's cloaks cheapest at Archie Reid's.

Wolf, buffalo and goat robes, at James Fathens, corner Court and Main streets.

Pure sugar candy; choicest confections at Denniston's.

Eldridge keeps a fine line of cigars and toilet goods.

Let me whisper to inquirers for good homes that I have for sale in this city, a goodly number of desirable residences at prices as follows: One at \$1,800, one at \$2,000, one at \$2,300, two at \$3,000 each, one at \$3,200, three at \$3,500, one at \$3,600, one at \$4,000, three at \$4,500 each, and a number at less prices ranging down to a few hundred dollars.

C. E. BOWLES.

The popular double breasted coat and vest made of heavy coating—tailor made and sure to fit; 5 grades, in all sizes.

FITCHER & ZIEGLER.

House and lot, corner Jackson and Wall streets, for \$1,800. C. E. BOWLES.

House to rent—On South Academy street. Enquire of J. A. Tice.

Two houses and lots for \$700 each, for sale by C. E. Bowles.

Go to Eldridge's drug store on Main street for pure drugs and medicines.

Remember that you can find any kind of an overcoat you want at our store. We have all grades in all styles suitable for all classes—all at uniformly low prices.

FITCHER & ZIEGLER.

W. C. HOLMES & SON have made large additions to their already big stock of new and desirable goods, and will not be undersold by any parties. Call and see the bargains offered in any department. The goods will speak for themselves. Please call and examine everything in the store at rock bottom prices for cash.

Cloaks, cloaks, cloaks.—Ladies if you intend purchasing a cloak of any kind, stop into Archie Reid's and examine his immense stock and if price is any object you will buy.

Ladies you can save from 15 to 25 percent by buying your cloaks at Archie Reid's.

O. E. Bowles has money to loan.

—Hidden Hand" at the Leppin opera house this evening.

—Regular meeting of the common council this evening.

—Miss Fan El Fitz at the rink Thursday evening. Admission, 15 cents.

—Regular monthly meeting of the Business Men's association this evening.

—Bower City Temple No. 3, Patriarch at Circle, regular semi-monthly meeting this evening.

—The number of books drawn from the public library during the month of October was 1,712.

—There were nine arrests made by the police force on Saturday and Sunday evening—principally ordinary drunks.

—Crystal Temple of Honor No. 32, regular weekly meeting this evening—lodge room in the Judd block, North Main street.

—There are now 3,860 people residing in Oak Hill cemetery. The population of the silent city of the dead is slowly but surely increasing.

—The masquerade party of the Bower City Rifles will take place on Thursday evening of this week—look out for fun and a good time. The Rifles know how to provide both.

—Miss Fitz will give two exhibitions at the rink, Thursday evening the first, commencing at 8:45 and the second at 9:15. No one should fail to see her. Admission 15 cents.

—The United States Express Co. opened an office on door south of the Gazette office this morning. Mr. Charles Betford is agent and Mike Watson, the former driver for the company, in charge of the wagon.

—The Womans Foreign Mission circle, of Court Street church, will meet in the Sabbath school room Wednesday afternoon, November 4th, at half past three o'clock. A large attendance is desired at this first meeting of the year. Promptness is requested.

—A young man named John Phillips, fell beneath a moving freight train at Edgerton this morning, and had one of his arms so badly crushed, that amputation was necessary. He also received some severe bruises about the head. He resided at Edgerton.

—Our old friend, Snyder, of the Grand hotel, Beloit, formerly of the Pember house, this city, is now doing a good business at the State Line City. Mr. Snyder has a fine house, and he and Dr. Robinson are running it in "Grand" style. Janesville people should register at the Grand.

—The "Salvation Army" drew a large crowd at Cannon's hall last evening, many climbing the stairs through a mere curiosity to see "what was up." The presence of Marshal Hogan and Night Officer Smith held the "gallery boys" in check and the scenes of the afternoon were not repeated.

—The funeral of Mr. James Tracy was held at St. Patrick's church yesterday afternoon at 2:30 o'clock. The body was followed to the Catholic cemetery by a very large number of friends and relatives, and the wife and children of the deceased may be assured of much sympathy in their affliction.

—The people who are compelled to do their teaming on North River street are doing considerable growling that the aldermen do not gravel that street. A large amount of gravel has been put upon the road-bed, and the recent rains so wet up the clay that the street is now almost impassable for teaming of any kind.

—The Blanche Melville theatrical company open a week's engagement at the Leppin opera house this evening, with Miss May Bretteau, as the star, who will appear this evening as "Capitola" in the "Hidden Hand." The company is said to be an excellent one. The admission will be 10, 20 and 30 cents.

—There was a large attendance at the Baptist church last night as several converts were to be baptized. The revival meetings have been productive of much good and many young people have been brought into the church. Last evening seven persons were immersed by Dr. Hoide, and it is probable that there will be more in the near future.

—The members of Rescoe Hook and Ladder company are making arrangements for their annual party, to take place at the Rifles armory, Wednesday evening, Nov. 25th—Thanksgiving eve. The Rescoe boys will have a good time, as their annual parties are always largely attended, and the arrangements complete for the comfort and pleasure of their guests.

—The "Recorder" came out yesterday morning with a handsome new heading, in the center of which is a very good representation of a portion of Janesville, the view being taken from Mr. Ed. Tallman's residence, Jackson street, first ward, looking east. We are pleased with this evidence of prosperity on the part of our neighbor, as it shows enterprise worthy of emulation.

—The rink management have made a reduction in their prices of admission which cannot help pleasing their patrons. On and after this date the admission will be 10 cents, skates, or use of surface free. Evening admission 15 cents, including attraction nights, and on non band evenings no charge will be made for skates for use of surface. On band and attraction nights use of skates or surface 10 cents. Remember 15 cents pays for admission any evening.

—Miss Fitz, who appears at the Rink Thursday evening, has just returned from a successful trip to California, giving exhibitions in the following states and territories: Wisconsin, Minnesota, Dakota, Montana, Idaho, Washington Territory, Oregon, California, Nevada, Utah, Wyoming, Colorado, Nebraska, Iowa and Illinois, traveling over 6,000 miles, giving 125 exhibitions during the summer months, she being the first lady skater to visit the slope. Her costumes, for elegance and novel designs, have no equal in this country. Admission 15c.

—Postmaster General Wm. F. Vilas is gaining notoriety in more ways than one and his name will be a household word wherever the head of the household possesses the forethought to keep the family supplied with neat cigar boxes. To Mr. Sam Wyler, the enterprising east side cigar manufacturer, is due the credit

of introducing a new brand of choice Havana cigars known as the "Nation's Choice." These cigars are put up in a neat box with the cover ornamented with a fine lithograph portrait of Colonel Vilas and bearing his autograph. Six thousand of these cigars are sold in the Chicago market and as many more nearer home. The package is neat and the goods are first class. When you want a good ten cent smoke call for the "Nation's Choice."

—A detachment of the Salvation Army arrived in this city Saturday afternoon from Chicago, where the army is now "encamped." They held their first meeting Sunday afternoon at Cannon's hall and drew a large audience. Their services, however, were somewhat interrupted, for while the hearers resembled those in Goldsmith's poem, "who came to soothe," yet those described by the English poet "remained to pray," which the Janesville audience did not do. They continued to soothe until the last amen was said, and the chances for a prosperous revival seemed doubtful. In the evening the hall was again well filled and this time a peaceful quiet brooded over both floor and gallery, due perhaps to the magnetic presence of Marshal Hogan. Yesterday the meetings were conducted by three persons, a young lady and two men. A number of others are expected and when they arrive the meetings will, according to the captain's statement, "make it hot for the devil and his followers."

—Judge Bennett returned from Jefferson Saturday night having finished the Jefferson county term of court.

—Miss Ella A. Cross, who has been visiting friends in this city for a week past, returned to her home in Milwaukee today.

—Mr. and Mrs. S. H. Reynolds, of Wichita, Kansas, are in the city, visiting friends. This is their first visit to Janesville since they removed to Kansas eight years ago.

—Mr. and Mrs. D. J. Hughes, of Elgin, Ill., spent Sunday in the city, called here on Saturday to attend the funeral of their brother-in-law, the late E. G. Thomas. They returned home this morning.

—The pleasant home of ex-Mayor A. P. Lovejoy, third ward, now echoes merrily music—the advent of a little son—the second—whose arrival was announced this morning, which is the cause of the happy smiles of the ex-mayor.

—Mr. D. Strunk, of Minneapolis, is in the city, the guest of his brother-in-law, Mr. Mark Kipley. Mr. Strunk has been connected with the Minneapolis Harvesting works for the past three years and has recently perfected a twine binder which promises good results.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites, is REMARKABLE AS A FRESH PRODUCER. The increase of flesh and strength is perceptible immediately after commencing to use the Emulsion. The Cod Liver Oil combined with the Hypophosphites is most remarkable for its healing, strengthening and flesh producing qualities.

Shooting at Madison. Last Saturday night about seven o'clock the police of Madison had an exciting escapade with a trio of burglars in which Ed. Lyons, night watchman and special police, was shot in the left side of his face, the ball entering about two inches in front of the ear and coming out about an inch back of the ear. The officers were making a raid on a thieves' den in that city and in the excitement incident or forcing an entrance Lyons was shot. Stewart escaped, and yesterday Marshal Hogan received the following telegram from the sheriff at Madison.

From \$200 to \$500 reward for arrest and detention of F. B. Stewart for shooting officer Ed Lyons, October 31. Stewart is a young man about 28 years of age, five feet six inches tall, rather slender, stoop shouldered, (right shoulder lower than left, weighs about 135 pounds, has thin, sharp face, keen, bright eyes, rather coarse mouth, light complexion, short hair and smooth shaven. When last seen he had on a faded soft brown hat, and was without a coat.

Dr. Sage's Catarrh Remedy surpasses all.

Oak Hill Cemetery. The following is a list of the interments in Oak Hill cemetery during the month of October:

October 3—Mrs. Laurilla Barker, town of Janesville, aged 64 years.

October 4—George Harvey, Chicago, Ill., aged 65 years.

October 14—Infant son of W. M. Carlier, Janesville.

October 16—Mrs. Sarah Drans, Janesville, aged 67 years.

October 19—Harry Convey, Janesville, aged two months.

October 20—Mrs. A. M. Longshore, Janesville, aged 45 years.

October 22—Clara Letz, Janesville, aged 1 year and 2 months.

October 24—David Schofield, Janesville, aged 80 years.

October 25—George W. Hayes, Janesville, aged 52 years.

October 30—Evan G. Thomas, Milwaukee, aged 30 years.

The average length of life in the insurance. The science of medicine has made great progress; many diseases are now controlled and many formerly incurable are now cured. The greatest discovery is Dr. Buxlow's Positive Cure, which cures consumption in stages that other remedies are of no benefit. Coughs, colds, croup, whooping cough, bronchitis, and all throat and lung diseases speedily and safely. Price, 50 cents and \$1.00 by druggists.

The Weather. At seven o'clock yesterday morning the thermometer indicated 35 degrees above zero. Cloudy with northwest wind. At one o'clock p. m. the register was 39 degrees above zero. Cloudy with northwest wind. For the corresponding hours last year the register was 38 and 41 degrees above zero. At seven o'clock this morning the thermometer indicated 34 degrees above zero. Cloudy with northwest wind. At one o'clock p. m. the register was 39 degrees above zero. Cloudy with northwest wind. For the corresponding hours last year the register was 23 and 46 degrees above zero.

Apples. Mr. F. S. Winslow has just opened a carload of choice Michigan apples which are selling rapidly at \$2.40 per barrel. They are very fine, and include all the best varieties. A large assortment of groceries still on tap, cheap, at 16 and 18 River street.

OUR WATER WORKS.

The Official Tests. Prove Satisfactory.

Description of the Plant and Matters of Interest Pertaining Thereto.

A Happy and Proud People.

The Contract Accepted by the Common Council, and the Works are Now in Permanent Operation.

[From the Beloit Free Press of Saturday.]

This has been a glad day for Beloit the completion of her water works and the public exhibition of the efficiency of the same causing universal pride and gratification as no public matter has ever done in latter day history of the city.

Not alone that our citizens have long felt the absolute need of the water works as a protection against fire, but because also of the other innumerable advantages derived from water works.

Beloit is a progressive town, though her growth in numbers has not materially increased for a few years. Every move made by the people has been in a line denoting a progressive spirit and a desire to be up to the times so far as her resources will permit and her needs demand, therefore the long anticipated event of the completion of the water works, the most important improvement the city has ever become interested in, is fully appreciated, for in nothing has the city been so far behind the world as in her fire protection.

Our people have not gazed upon the ancient hand engine with pride or reliance for many years, and the proposition of having water works was often discussed, but delays upon delays occurred in acting upon the question, and time sped on until the happy hour for final and favorable legislation upon the important matter came, and now we have as fine a system and plant as there is in the union, and superior in many ways to that of most cities of as small population as this.

THE TEST TO-DAY. The test this afternoon seems to satisfy everybody of the fulfillment of the contract. Five magnificent streams of water were shot up (previous to the test) to a height of 100 feet, and according to a surveyor's calculations were as high as 125 feet. Other tests are being made.

A DESCRIPTION OF THE WORKS. The works are constructed upon both the direct pressure and gravitation plan. The pumping machinery consists of two steam engines, each of 100 horse power, and a water pump, of 100 horse power, all built by the City of Beloit and Machine Works. The maximum pressure to be secured with the direct pressure will be over 150 pounds at the works, and the reservoir pressure at the works will be 50 pounds. The reservoir will give a static pressure of 55 pounds on the flats and 35 pounds on the bluffs. This pressure would of itself be sufficient for ordinary fires.

THE MAINS. There are seven and a quarter miles of mains laid about the city. The pipe is of the best cast iron, and varies from four to fourteen inches in diameter. Inside measurement, the greater portion being a eight and six inches in size, and all laid six feet under ground. This pipe is almost equally divided between the east and west sides of the river, and is laid on the following streets:

West side—Bluff, Bridge, Farm, Eighth, between Farm and Bridge, C, between Bluff and Oak, D from Oak to Barker Ave. North and most of Third and to paper mills.

East side—State, Pleasant, Broad, School, from State to College, Mechanic College, Clark, portions of Third and Fourth and Park Avenue.

The contract for laying the pipe was secured by Mr. C. E. Gray, Jr., of St. Louis. Ground was broken for the work on June 20th. The test of the water mains shows to the very great satisfaction of the citizens, and the contract, now to everybody concerned that in the future 7 miles of pipes, with the hundreds of joints, there is not a leak which will necessitate doing the work over. This is a remarkable and something never known before in so extensive a job, and speaks well for those who did the work.

THE FIRE HYDRANTS. There are 72 double discharge fire hydrants, of the celebrated Matthew's pattern, one of the best made. They are arranged at the rate of 10 to each mile of mains. They stand about 2½ feet in height and are ornaments to the streets. In case of fire the hose is attached to the plugs, the gate is opened and the water gushes forth with tremendous pressure.

THE BUILDINGS. The pump house is an attractive red brick building 33½ feet long and 20 feet wide, divided into three apartments, viz: pump room, boiler room, coal room. The smoke stack is 60 feet in height, and is built of brick. Everything pertaining to the building and the machinery it contains is completely in the latest style. The building is situated on Pleasant street at the corner of North Bridge street.

THE RESERVOIR. One of the important features of the entire water works is the great tower, which affords a dignity to the water works and gives a triumphantly epochal announcement of its great importance. The tower is built two hundred yards distant from the pumping works upon a pretty elevation of land, one of the highest in the city, which is about 100 feet above the level of the street. The tower is of stone, and is 83 feet in height. It is octagonal in shape, 36 feet in diameter at the base and 30 feet at the top. The walls at the base are 8 feet thick, and the structure is one of the most massive pieces of masonry work put up in this country. On top of the tower is a tank 30 feet in diameter and 20 feet deep, made of 3 inch cypress lumber. The capacity of the tank is 100,000 gallons. The tank is neatly finished on the outside and on top is a copious armament by a flag staff 16 feet long, on the top of which is a big golden ball. Well built stairs in the interior of the tower lead to the bottom of the tank and on the outside of the tank is a stairway to the roof. A balcony is formed around the top of the tower at the base of the tank, affording a fine "look out" point for any who desire to examine the city from above. The wood work of the tower and tank is elaborate in finish, nothing whatever was slighted and it will long last a specimen of the excellent work of the Beloit Wind Engine company, the contractors. There is probably not so fine a reservoir in the whole country. The Beloit company certainly can point with pride to it.

THE WELL. The works are supplied with water from a well 30 feet in diameter and 35 feet deep, with a never failing flow of water of very superior quality according to chemical analysis. The well is walled with brick, and is to be roofed over, being absolutely tight and impervious to animals and insects which usually infect ordinary wells. The building of the well has been one of the most difficult and tedious operations in connection with the construction of the works. Mr. George Riechhoff, of Chicago, was the contractor.

THE PRIVATE SERVICES. The water works are supplied with water from a well 30 feet in diameter and 35 feet deep, with a never failing flow of water of very superior quality according to chemical analysis.
